

The Community Garden.

Last Friday 7th December the students and staff of St. Joseph Paola together with members of the local community, the sisters of St. Joseph, the mayor of the Paola local council and an HSBC representative gathered at Wied Blandun Gardens for the opening ceremony of the little community garden.

The Eko skola committee has been working very hard with the Paola local council to set up a part within the public garden where the students can grow plants and trees as part of their science lessons.

The garden was blessed by Father Mangani and the girls were addressed by the local major Mr. Roderick Spiteri as well as by Sister Bernadette Gafa the provincial who reminded the girls to respect and look after what has been entrusted to them.
