

Pre Grade Sausage roll activities and ants

The Pre Grades had their first cooking experience with Ms. Renette and Ms. Marilena in the home economics room last week. One of the activities related to the letter of the week – S – was making sausage rolls.

The girls had a great time rolling sausages into the dough as well as trying to make letter S shapes out of the remaining dough but their favourite part of the activity was definitely eating the sausage rolls!!

During the second week of our Pre Grade adventures we visited a garden close to our school. Here the children were encouraged to observe how ants travel with food, in and out of holes, over small hills of dirt, and also onto the Autumn leaves which the children held as they were able to observe the ants even closer.

This activity was part of a project for 'Dinja Wahda' as well as part of our letter of the week activities
