

Sponge Bob Water Forum

On the 6th November 2013 the grades 3, 4, 5 and 6 participated in Sponge Bob – Water Forum. This activity was part of the Catch the drop Campaign sponsored by HSBC.

The girls took an active part in an animated session about the use of water and water conservation. The lively characters of Sponge Bob and Pete the pirate brought home some good water conservation tips and explained to the girls about the necessity of looking after water. The girls enjoyed the games, sing songs and quiz that was organised for them.
